RESUME PROFILE

I'm a passionate, enthusiastic, and professional Full-Stack Developer who loves nothing more than creating and developing many kinds of web and mobile apps using all the skills I've acquired over 6 years of dedication to studying and developing.
My goal with all my clients is to listen, learn, understand, and execute to the highest level. I always aim to deliver what the client requires, but if I feel there's a better solution, I'm always willing to give them some input and direction if wanted.
A happy client is a successful project to me

EXPERIENCE

Front End Developer
06/2016 - 11/2017
ITM HOUSE
Toronto, Canada

ITM House is an agile software development company.
They were founded in 2011 and have a team of 11 employees who specialize in custom software development, AI, and blockchain development.
- Created reusable D3.js charts using Raphael.js to draw SVG on browsers.
- Handled responsive design layouts for views.
- Implemented reusable components for UX using jQuery.
- Created an xQuery Selector generator from an HTML Element DOMNode.
- Created a Pop CSS editor for elements.

Web Developer
11/2017 - 07/2019
NOVISMART TECH.
Wien, Austria

NOVISMART TECH. Is a business consulting company.
Founded in 2013, the small team offers business consulting, custom software development, IoT development, wearable app development, and more.
- Created a new front-end app based on React and Redux.
- Added a Hot module replacement plugin to Webpack.
- Worked with legacy code on the server side, able to understand the principles behind it and make it work again.

Senior Full Stack Developer
01/2020 - 03/2022
CodeEpsilon
Lewes, US

CodeEpsilon is a leading Custom Software Development Company in India & US providing a spectrum of IT services, including IT Consulting, Mobile App Development, Web Development, Creative Design (UI/UX), DevOps, Support, and Maintenance, Migration Service, and Quality Assurance.
- Worked on providing API endpoints with Node.js/Inversify and MongoDB.
- Built from scratch admin platform for managing platform's database entities and users using React, Node.js, and Mongoose.
- Implemented complex UI components with React/TypeScript and SCSS.
